

Awards for Research That Has Benefited Organizations and Society

Instituted by the Management and Business Review

In support of the broader mission of the *Management and Business Review* (MBR), we are creating twenty-five biennial awards which recognize research that has benefited business and society during the last fifty years. These awards cover most of the topics central to the role of management in the private and public sectors and to addressing the key challenges of our times. We have named these awards after scholars, educators, administrators, and executives whose work has made organizations and society more productive, the work environment more rewarding and fulfilling, and human lives longer and healthier.
